Metric	2024 (E)
CRE Same-Store NOI	<b>1.0% to 2.0%</b>
Same Store NOI, excluding collections of amounts reserved in previous years	<b>2.0% to 3.0%</b>
FFO per diluted share	\$0.95 to \$1.05
AFFO per diluted share	\$0.80 to \$0.90

## FFO Guidance Considerations<sup>1</sup>

17

<sup>1</sup>Land Operations FFO per share is calculated as Total Land Operations operating profit divided by weighted-average diluted shares outstanding, as reported in the respective period. 2022 Land Operations FFO includes \$14.8 million related to Land Operations' proportional share of income tax benefit from the pension termination. CRE and corporate-related FFO is calculated as total FFO minus the portion of FFO related to Land Operations. As a result, it includes the impact of commercial real estate and corporate-related activities.

## **Statement On Use Of Non-GAAP Financial Measures**

The Company presents certain non-GAAP financial measures in this presentation. The Company uses these non-GAAP measures when evaluating operating performance because management believes that they provide additional insight into the Company's and segments' core operating results, and/or the underlying business trends affecting performance on a consistent and comparable basis from period to period. These measures generally are provided to investors as an additional means of evaluating the performance of ongoing core operations.

The non-GAAP financial information presented herein should be considered supplemental to, and not as a substitute for or superior to, financial measures calculated in accordance with GAAP. The Company's methods of calculating non-GAAP measures may differ from methods employed by other companies and thus may not be comparable to such other companies.

Required reconciliations of these non-GAAP financial measures to the most directly comparable financial measure calculated and presented in accordance with GAAP are set forth in the following slides. Additional information on non-GAAP financial measures is included in the Company's quarterly Supplemental Information report, which is furnished to the SEC and available at www.alexanderbaldwin.com.

## **Core FFO to Adjusted FFO (AFFO) Bridge**

As part of the Company's simplification process, Management will no longer report on or guide to Core FFO in 2024. Instead, Management will report and guide to AFFO. For comparative purposes, a reconciliation between Core FFO and AFFO is provided below.

AFFO represents a non-GAAP measure relevant to the operating performance of the Company as compared to other real estate companies. The Company's calculation refers to FFO as its starting point, adjusted to exclude: (1) items that are non-recurring, infrequent, unusual and unrelated to the core business operating performance (i.e., not likely to recur within two years or has not occurred within the prior two years); and (2) non-cash adjustments, including but not limited to straight-line rent, favorable / unfavorable lease amortization, amortization of deferred financing costs, market debt and swap adjustments, and share-based compensation. AFFO further reduces FFO for normalized recurring expenditures that are necessary to maintain our properties including but not limited to recurring capital expenditures, tenant improvement costs, and leasing commissions paid. Adjusted FFO provides further insight into our performance by focusing on the revenues and expenditures directly involved in our operations and the management of our entire portfolio.

	Twelve Months Ended								
	2	2023	2	2022					
Core FFO	\$	85.3	\$	82.2					
Land Operations activities that do not meet exclusion definition, $net^1$		3.9		16.3					
Non-core business interest expense		(11.4)		(11.0)					
Maintenance Capital Expenditures (recurring)		(13.7)		(14.6)					
Leasing commissions		(1.4)		(1.3)					
Non-cash debt adjustments		1.0		1.0					
CRE segment straight-line lease and (favorable)/unfavorable lease amortization adjustments		(6.3)		(7.4)					
Amortization of share-based compensation		6.1		4.9					
AFFO	\$	63.5	\$	70.1					
Weighted average diluted shares outstanding (FFO)		72.8		72.8					

<sup>1</sup>Balance represents Land Operations profit / (loss) excluding inter segment operating charges (net), (gain) / loss on sale of business, (earnings) / loss from joint ventures, pension termination (net of tax), impairment of assets and the non-cash impact of changes in certain legal, environmental and other reserves. See Table 18 within our Supplemental Information for more details.
