Ground Lease Portfolio

In Hawaii, it is common to bifurcate property ownership between land and improvements by way of a ground lease. A **ground lease** is a type of lease agreement where a landowner retains ownership of land (the "leased fee") and leases that land to a tenant for a long-duration. Often, the tenant will build improvements (the "leasehold") which the tenant owns and maintains for the duration of the ground lease term.

Land (Owned by A&B)

Leasehold Owner (Our Ground Lease Tenant)

- Pays ground rent to A&B
- Responsible for the operating costs and capital expenditures related to ongoing ownership and maintenance of the land and associated improvements
- Tenant may sublease all or a portion of the improvements

Leased Fee Owner (Alexander & Baldwin)

- A&B receives senior / secured ground rent payments from our tenant which include fixed, CPI adjusted and / or fair market value-based rent escalations
- All improvements automatically revert to A&B upon ground lease expiration or tenant default

Partners for Hawai'i

Ground Lease Value Proposition

Ground Rent Fixed Step Ups

Tenant pays A&B ground lease rent that includes contractual fixed step-ups and is responsible for majority of operating and capital costs.

Ground Rent Fair Market Value Resets

Periodically, ground lease rent resets based on increases in land value, often at substantial growth rate.

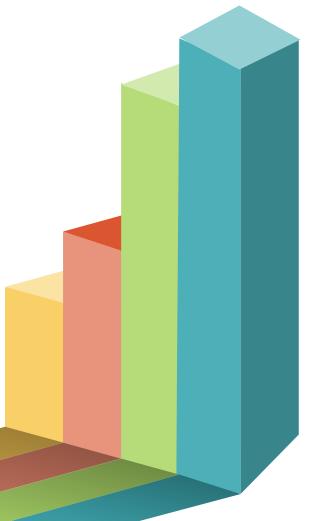

Leasehold Buy Out or Reversion

At the end of the ground lease term, ownership of improvements reverts to A&B at no cost, or A&B and tenant may negotiate an early buyout of the improvements.

Redevelopment of Improvements

Redevelopment of improvements unlocks attractive risk adjusted return.

CRE Net Operating Income

NOI is a non-GAAP measure used internally in evaluating the unlevered performance of the Company's Commercial Real Estate portfolio. The Company believes NOI provides useful information to investors regarding the Company's financial condition and results of operations because it reflects only the contract-based income and cash-based expense items that are incurred at the property level.
